I would like to thank everyone for their package and queen orders this season. A lot of our customers never get to see our operation so I figured I would put some of our history up for everyone to see. How about those prices???

Thanks Again, *Stingplate*

YORK'S PACKAGE BEES AND QUEENS

In presenting our price list for 1932 we desire to thank our many friends for their past patronage and pledge ourselves to do by you in the future as we have in the past, the very best we can do to please and satisfy you in every regard.

We have never ceased improving our bees and the result is a combination of the best strains of Italian bees in America. It is no wonder that we have so many favorable reports from customers commending the quality of our bees and queens. Some report as high as 450-lbs. surplus honey from a 2-lb package of bees, while others make similar reports which may seem a little unusual but proves there is something in the strain and breeding. Our bees and queens are bred for business and each year we strive to give you something better. Never before were we able to offer you greater values and lower prices than now.

We are located in the best section of the South for early bees and queens. Have honey coming in for a long duration which makes it ideal for rearing the best queens. Our bees and queens are caged and shipped the same day, as we have excellent shipping facilities which enables us to

get all shipments off in dispatch order. Our beekeeping experience dates back beyond 1908. Satisfied customers is our motto and our successful career is based on our ability to give you the best quality and service at the lowest possible price. 3,500 colonies and as many queens mating nuclei enables us to handle your orders satisfactorily to you, whether for one package or a thousand or more. Note our prices, they are in line with the times and you cannot buy better bees or receive better service regardless of price.
